Hi Tamara Attached are recommendations EPA provided to the EWG for our next meeting tomorrow. I want to keep Ecology in loop regarding progress on EW AB and also regarding the issues discussed. Please share amongst your staff. If you would like to have a staff member attend tomorrows meeting or any other meeting prior to the January 13th meeting for the larger stakeholders, please let me know.

Regards,

Ravi

Dan and Brick Attached are EPAs issues that were unresolved from the last EW AB Meeting that we would like addressed at this Fridays meeting. EPA has provided rationale regarding the issues as well as potential next steps (ie what can be included in the sensitivity analysis).

Please let me know if you have any questions.
